Since 1985, and because of the generous support of local corporations, businesses, individuals and service organizations like you, CEEF has granted \$16.4 million to support innovative enrichment and educational programs for more than 200,000 students in grades TK-8 in Cupertino Union School District.

These young people embody the very creative, innovative and entrepreneurial spirit of Silicon Valley. The well-round and rigorous education these young people receive in CUSD schools serves as the foundation for their continued success in high school, secondary education, and, ultimately, as our global leaders and game changers.

According to George Lucas, "Education is the single most important job of the human race."

We invite you to join this legacy of innovation in education in Cupertino Union School District through sponsorship of Cupertino Educational Endowment Foundation's Black and White Ball. Net proceeds from this year's Black & White Ball will support STEM and Music Education for grades TK-8, including repairing and replacing instruments, purchasing sheet music and props, and music teacher training.

Sincerely,

Meredith Smith
